EDUCATION

Vellore Institute of Technology Bhopal, Madhya Pradesh
Bachelor of Technology in Computer Science Engineering, AI & ML **CGPA: 8.90** September 2023 – Present
Courses: Data Structures and Algorithms, Operating Systems, Database Management Systems, OOPS

EXPERIENCE

SmartBridge — Generative AI Intern, Remote May 2025 – July 2025

- Applied prompt engineering and model fine-tuning on Vertex AI, reducing hallucination rate by 15%
- Integrated AI-powered tools for text summarization, conversational chatbots, and image-based tasks, improving efficiency and user engagement
- Collaborated on end-to-end deployment of generative AI solutions, integrating model outputs into real-world applications

PROJECTS

Medically – Python, HuggingFace, Langchain, FAISS, Streamlit [GitHub](#) [Live Site](#)

- Implemented an AI medical chatbot using a Retrieval-Augmented Generation (RAG) pipeline with Gemini LLM and LangChain
- Developed a vector search system using HuggingFace embeddings stored in FAISS for fast and accurate retrieval
- Built a scalable Streamlit interface demonstrating end-to-end AI workflow including inference, embedding, and deployment

PlantDoc – Python, TensorFlow, Keras, OpenCV, Streamlit [GitHub](#) [Live Site](#)

- Built a CNN-based model trained on 70,000+ plant leaf images across 38 classes achieving 97.8% accuracy
- Designed an end-to-end pipeline including image preprocessing, feature extraction, and real-time prediction
- Deployed a Streamlit web application enabling users to upload images and receive disease predictions with confidence scores

Connected – Python, Django, Django REST Framework, PostgreSQL, AWS [GitHub](#) [Live Site](#)

- Engineered a full-stack platform used by 30+ developers to connect and share projects
- Implemented secure authentication with JWT tokens and automated email workflows for 30+ users
- Architected 10+ REST API endpoints using Django REST Framework validated via Postman
- Deployed scalable backend using AWS PostgreSQL RDS and S3 managing 20GB+ media storage

SKILLS

- Programming languages: Python, C++, JavaScript, SQL, HTML, CSS
- Framework: Django, Django REST Framework, Tensorflow, Keras, Flask, OpenCV, Langchain, Streamlit, React, OpenAI SDK, CrewAI
- Tools: Git, GitHub, Google Colab, Postman, Jupyter Notebook, PostgreSQL, Docker, Redis, HuggingFace, FAISS
- Platforms: VS Code, Windows, Netlify, Render, Vercel, Railway, AWS

EXTRACURRICULARS

President, Toastmasters International VIT Bhopal

- Led a 40+ member Toastmasters club at VIT Bhopal, organizing 15+ public speaking and leadership sessions, increasing participation by 35%

The AI Club, Team Member

- Conducted introductory sessions for 100+ freshers on GenAI and Machine Learning

Google Crowdssource Adversarial Nibbler Hackathon

- Secured a Top 10 position among 200+ teams in the Google Crowdssource Adversarial Nibbler Hackathon

ACHIEVEMENTS AND CERTIFICATIONS

- Published “PIPO: AI-Based Voice Assistant” at IEEE Global AI Summit 2025 [\[Paper\]](#); designed a multimodal AI pipeline using Whisper, mBERT, BERT, and GPT achieving 94% accuracy
- Solved 750+ DSA problems on LeetCode and GFG, strengthening algorithmic efficiency and data structure proficiency
- Earned Knight badge on LeetCode and a 3-star rating on CodeChef
- Ranked 2052 globally in LeetCode Weekly Contest 432 (max rank: 1874) and 465 in CodeChef Starters 167 (max rating: 1683)
- Completed “Google Cloud Generative AI” [Certificate](#)
